Although I didn't know you, Dorothy, your daughter-in-law talked of you often and shared the fun and craziness she had with you. She loved you deeply as we love her at RCM Tulsa. To the family, I am so very sorry for your loss. Please hold all the special memories you had together during this difficult time. Dorothy's life will truly be one of celebration. I met Dorothy 4 years ago when I joined the Camaro Club! We bonded instantly and not just for our love of our Camaro's. She was like a beloved sister! She is the most AMAZING woman I have ever met. She is selfless, caring, loving and beautiful woman! Did not go to car shows or cruises this year as it was not the same without her! God got the MOST AWESOME Angel Ever!! Love you and miss you so much sis!!!

I have fond memories of attending school with Dorothy and of us visiting each others homes for overnight stays. The years drew us in different directions but I have often wondered where you were and how you were doing. My deepest sympathy to her family during this difficult time.

I have many fond memories of my childhood friend Dorothy and then many years to follow. I will always admire her strong faith in God as she struggled through this awful disease. She always put her faith and trust in our Lord. She is now the happiest anyone could ever be with the one who died for her and saved her and gave her eternal life. This picture I am posting is one she sent to me several months ago. It is one of her on the left, me in the middle, and Darlene on the right. There she is with that same stance, ha! Her hand on her hip. Love you Dorothy and will see you again some day soon!

What a special girl I am to have had the BEST mother-n-law in this entire world. She always treated me as if she gave birth to me herself. I love her so much and so sad to loose not only a mother but a best friend. I will always cherish the moments we spent together, shopping, going to see Bob Seger, dinners out and our own lunch dates. Dorothy Jean will always be an angel to me, love you to infinity and beyond.
