I worked with Elwyn for a number of years, and he was unfailingly kind. Always admired him for the sheer number of years he was with us. I remember once observing an eclipse, and he willingly shared his equipment with others and was so excited about the event. Need more like him.

I worked with Elwyn for nearly 20 years and never have I met a more kinder and gentler soul. I have subconsciously worked one of his oft-used catch phrases into my everyday vernacular. He was loved by all and will be greatly missed, but we will always carry our fond memories of how he touched our hearts in the way only he could.

Elwyn and I worked many years together. He was always such a gentle, quiet guy. He was knowledgeable about so many things and when he didn't have a big audience would share that knowledge. My prayers are for the family. I will miss always seeing him and his bike around town.

Spent many days with Elwyn in the breakroom when I worked for Broken Arrow Public Schools doing crossword puzzles. He also taught me and shared his hobby of flying and building model planes. A good man! Nobody can say a bad work about him!

I will miss Elwyn's always cheerful mood. He kept the Gluedobbers with lots of memories from his great model airplane photos. I know that i have saved possibly 90 to 100 thousand of them. Miss you buddy.

My memory of this wonderful man came from working with him for BA schools up until he retired, he was the nicest man in the world, he never disagreed or anything just an easy go person and I had a lot respect for him, he was wonderful photographer and loved to talk about planes; Elwin will be missed by everyone of us that worked with him, God bless him.
