“ My grandma was ,y rock she would tell u if u were right or wrong but would always be on or side no matter what. She was the reason me and my late husband got together, after only knowing him for a week he asked me to go work on the road with him and before I gave him an answer I sat down with my grandma expecting to get that look of disapproval she often gave but this time she asked me what my heart wanted I told her my first thought was that he was the man I would spend the rest of my life with and she said to go pack my bags and go with him and because of her I spent 20 years with him and raised 2 children. Grandma always made everything OK she was my rock for 48 wonderful years she is loved and missed by everyone that knew her....I love you grandma....Love Susy
