“ A father's love! For the last 67 years I have grown to depend on you. Yours words of wisdom & understanding. I will pass that on to my children & pray it continues on for generations to come. Dad, I will see you at every turn that I make, every step that I take. Your love will never be forgotten.

“ There are not enough words that I could say to explain what my papa means to me and my family. Just know all of us are who we are because of him and nanny. No matter the situation papa was there to support us in whatever way we needed my heart hurts knowing he is gone but I am happy know so much of him lives on through the family My Nanny and Papa raised.

“ Diana McNatt Walden Oh daddy when I seen your picture I could see how happy you were to finally be with momma. Daddy you and I had grown so close to each other. I thank you and momma for asking me to move back into the house that I had lived in before but this time living there made it feel so much more special. I feel so blessed and honored to be able to help take care of momma but daddy when you got sick that hit me hard just like it did with all your children. Daddy I can still smell you here at home and I miss you so much. I don't know how I'm going to be able to carry on without you cuz we have been with each other here in this house and I still look for you to be sitting in your chair or laying in your bed. My heart aches for you everyday and it's like a dream and my brain and body isn't letting me let you go. Daddy I will take really good if your house and I promise I will tell you and momma good morning and good night before I go to bed. It has been such an honor and privilege to be one of your daughter's. I love you daddy and I cry myself to sleep but I know you can already see that. I know you and momma are looking down and watching over all of your children I feel it in my heart that when you passed away and went home to be with momma you both see everything that we do in life. Love you to the moon and back your daughter Diana McNatt Walden.
