“ I will always have a special place in my heart for Elsie. She babysat my sister (Kim) and me for 8 years in the early 1960's. I have so many wonderful and treasured memories of her and her family. She treated us just like family and guided us to be good people. I learned my alphabet there, learned to climb trees (can still here her voice, "Pammy Dawn! You get down out of that tree right now!"). I also remember when she laid into us for throwing mud at the neighbor's car. (not sure what even possessed us to do that) She made us apologize to the neighbor, and wash their car – which helped to build my character. She took us to Vacation Bible School, where even more positive shaping of our lives took place. She was wonderful to us, and for that I am eternally grateful. She was a Godly woman who lived her life serving our Lord. Heaven has truly just gained an angel of the most loving and generous kind. With much love, I pray the family will find peace in the memories they have and know that there are many who share their love of Elsie. Lovingly, Pam (Brown) Robison
