“ Judy Bug this is really hard for me to Grasp. Life with out you will not be the same its going to be very hard not to pick up the phone and call you for advise or for encouragement. You have been my Mom, Friend and warden when needed to be. We have been through a lot together. I will never forget your smile,your laugh and the love you had for everyone that you knew. Life with out you in it will not be as bright as it once was. Saying goodbye to you is one of the hardest thing I have ever had to do. I guess I shouldn't say goodbye, but instead I should say see ya later. Thank you for everything you have ever done or said to me. Because of you my life has blossomed and made me the Women I am today. I am a better person because of you! I love you Judy bug to the MOON and BEYOND! Love you always and forever your,
Tammy!
