“ Oh, Mark. Always that person I could talk to when nobody else understood. I will miss you for the rest of my life. My dear cousin who was my “partner in crime” in our childhood years at family reunions. I hope Heaven has plenty of fishing and hunting to do. I am looking forward to it. I am so sorry for the pain you had to endure. I will always be grateful for you keeping me in the loop and talking to me as you went through this BS named cancer! My sincerest condolences to the Conway family. There will never be another like Mark.
