“ I’ll never forget making going to the bank a special place for Patsy and Roy. Who knew opening an account, I got in trouble for laughing too much in the office, jealousy. only with them would patsy be slipping down the pleather chair and never realize it until she was almost sandwiched,poor patsy had no traction and I couldn’t even breathe to help her and Roy. He helped her. Our hero. Truly. I learned and knew soulmates were real in them.life long memories and friendship. Gave me hope that I really can be funny as I age and in my future partner as well. If not slip them down the chair. Without the jokes and laughter: the world lost a pretty perfect patsy. I love you both very much.

“ Patsy and I were great friends when we lived near each other when our kids were little and played together. We knew one another at Central High and did some things together. She was one of a kind and I always remember her and the crazy things we did when the kids were small. I considered her a friend for life and I think of her so very often. I love you Patsy and look forward to seeing you again in Heaven.

“ There truly aren’t words to say how big of an impact you had on my life. I was very difficult as a child and teenager but you and Grandpa never gave up on me. From New Years Eve fondue, to many amazing memories at the lake, there was never a dull moment when Granny was around. I love you Granny, and I know I will see you another day.
